For example : abc1, abc23, abc0-21 I have used the following regular expression for substitution. \$newString = preg_replace('/^[^a-z]+/', '\$1', \$comment); Can anyone help me in the correct regex to match the above example? A: Try /^(w+)(?:\d+)(?:\w+)(\d+)\$/ This prints out three matches, the first one for the desired abc0...10 elements, the second one for abc23 and the final one for abc1. Saint Stephen's Catholic Church Saint Stephen's Catholic Church is located in the Westmoreland Mall in Etobicoke, Ontario, Canada. The church was designed by Canadian architect Alfred Blum in the gothic Revival style of architecture. History In 1923, a foundation was laid for the church. The official ground breaking ceremony for the church took place on May 23, 1928. Archbishop Michael Power and Pastor Thomas McGroarty of the Roman Catholic Archdiocese of Toronto were present at the ceremony. Construction was completed in the spring of 1929. The church was consecrated by Bishop Daniel O'Donnell on September 25, 1929. In the early 2000s, the American retail chain Westfield announced plans to redevelop Westmoreland Mall into a. The redevelopment was spearheaded by Los Angeles-based real estate company Westfield America. Westfield announced plans to consolidate its Canadian businesses into the new Westmoreland Mall complex. The first phase of redevelopment was completed in 2003. The redevelopment featured a Kmart store and the first phase of a Target store. The remaining phase was completed in 2010. The construction of the remaining Target store and the Target Express store also contributed to congestion in the area. On September 30, 2016, it was announced that the shopping mall would be closed for renovations. On October 13, 2017, it was announced that the Westfield Group had submitted a proposal to the City of Toronto to develop a standalone Walmart Supercentre at the location. Saint Stephen's f678ea9f9e
